**Derek Piotr** - “Colossus” from *Airing* (out May 15th [on Bitsquare Records](#))

Previously featured [on A Future in Noise](#) and appearing [on Vulpiano Records](#), [Derek Piotr](#) has been a long-time favorite now and I have been pleased so see him continue to grow as an artist and release increasingly fascinating works. *Airing* includes the signature Piotr sound-collage aesthetics, delivered in a newly crisp, refined sonic atmosphere. The tracks are not merely sound/art objects. Unusual arrangements of the time and space music and effects occupy — rapid-fire electronic blasts amidst a slow, plodding rhythm or chiming bells — along with eerie vocals and fragments of sound make for the tracks on *Airing* to be compelling pieces to take in and dissect. Highly recommended.
