## 🎵 Derek Piotr - “Grunt”

By [Ryan Masteller](#)

“Grunt” is the story of one man’s thirty-seven-second attempt to recalibrate and restructure his own personal timeline after getting caught in a physics-less glitch. Watch as he battles pixelation and the nightmare of rendered static! Listen as rhythm undergoes changes at the molecular level, reversing and lurching forward as it becomes further and further unmoored from rational existence! Take notes as you furiously attempt to unlock the mystery of the time-stuck mortal to save him from a fate worse than death!

That being bodily disassembled stasis.

“Grunt” is the title track from [Derek Piotr](#)’s Grunt (duh), out September 28 via DPSR.
